All stations (n = 443)
RMSE over all forecasts
Tide gauges (n = 51)
median station
Estuaries (n = 44)
median station
Lakes (n = 12)
median station
Rivers (n = 256)
median station
Urban creeks (Houston) (n = 71)
median station
Water level only
+ wind, past 72 h
+ wind, next 6 h (forecast)
+ upstream discharge
discharge from the same river, wind off at 15 inland rivers
+ rainfall of the past 72 h only
+ rainfall: past 72 h and HRRR forecast for the next 6 h
+ rainfall: past 72 h and observed next 6 h [not available in real time]
no rainfall; error scaled by the 6 h change, gaps filled with the last observation
the same + rainfall: past 72 h and HRRR forecast for the next 6 h
the same, trained with the newest 1-3 h of water level missing in a quarter of the samples
the same + rainfall: past 72 h and observed next 6 h [not available in real time]
